- ✓ we lacquer in the full RAL K7 colour palette and, on request, in other colours (use powder code)

1.3

Uw when Ug = 0.6
(Aluminum spacer)

3

Chambers

Folding doors based on the Decalu 88 Folding Doors system provide very good thermal insulation in winter, and in summer they allow you to open the interior space to a garden or terrace.

Uw = 1.3 W/(m²K)* when using the 4th / 16Ar / 4 / 16Ar / 4th package – Ug = 0.6 W/(m²K), argon-filled, with aluminum frame.

*Coefficient calculated for a door with dimensions of 4000 x 2200 mm.
