- ✓ max. railing width: 3000 mm
- ✓ laminated tempered glass
- ✓ clear or frosted glass
- ✓ glass thickness: 12, 16 or 22 mm
- ✓ standard fixing on anchors
- ✓ optional mounting on the profile
- ✓ installation directly on the frame

**The Glass Barrier glass balustrade**, the so-called French balcony, is designed to protect high windows without obscuring the view. It allows the use of transparent or frosted glass up to 1 meter high. The maximum width depends on the thickness of the glass used.

**The balustrade is attached directly to the window frame already at the production stage, thanks to which the customer receives a finished product.** The upper edge is secured with an aluminium. The available colours of the guides are **white, anthracite and natural anode EVI (silver)**.

Glass Barrier can be combined with single and double sash PVC windows in the following systems:

- **Ideal 8000**
- **BluEvolution 82**
- **BluEvolution 92**
- **S9000**

and with aluminium windows:

- **MB77HS**
- **MB86N**
- **MB79N**
- **Genesis**
- **Ultraglide**
