Model: Medos Dublin (anodised)

✓ Standard spindle length: 35 mm

---

## Medos Dublin (anodised)

The premium handle made of anodised aluminium combines excellent modern design with functionality. The handle stroke in 45-degree increments makes it possible to install them in windows with micro ventilation. Handle anodised by sandblasting or brushing in variants: F1, F4, F9005.

\*the handle is available in key and push-button variants for selected spindle lengths and colours.
