Layers

The system of wooden windows with the smallest installation depth. The latest technologies used in this product ensure their high energy efficiency. This system is available in two versions: STANDARD and ALU.

* The above value of Uw is given for a reference window with dimensions of 1230 x 1480 mm.

The colour palette presented on the Eko-Okna's website is for illustrative purposes only and cannot be a clear reference to the actual colours or wood grain. As the most reliable source of colours, we recommend the sample provided by our partner, Teknos.
