

Unico

✓ profile with a construction depth of 70 mm

✓ glazing with glass units up to 60 mm

✓ galvanized steel profiles

✓ a thermal break made of stainless steel provides additional structure stabilization

✓ we lacquer in the full RAL K7 colour palette and, on request, in other colours (use powder code)

1.3

Uw for Ug = 0.6 (the Ultimate frame)*

3

Gaskets

The UNICO window system with a thermal break will perfectly suit buildings with greater energy expenditure requirements. With its use, we can craft not only windows, but also doors, facades and all types of spatial structures.

* The above value of Uw is given for a reference window with dimensions of 1200 x 1480 mm.
